Re: Disposal Lagoon Inventory
William Dick Lagoons
West Caln Township, Chester County

Dear Mr. Sayer:

Mr. Dick has given me your letter of September 24. Undoubtedly, you are aware of the equity action now pending in the Commonwealth Court against Mr. Dick and Chemical Leaman. A meeting was held on Friday, the 25th of September with representatives of the State Department of Health for the purpose of reaching an agreement, if possible, as to the means of disposing of the waste in the lagoons. As you know, there has been no further dumping since the dam was breached by trespassers last June and we agreed that there would be no further dumping. A consent decree to this effect was entered on September 10, 1970 in the Commonwealth Court.

On Tuesday, September 29, representatives of the Department of Health, geologists and others are going to the Dick property to take test borings and make further investigation. Under the circumstances, it would seem to me that an effort to answer the few questions to your letter of August 15 would be somewhat vain. Moreover, Mr. Dick does not know the answer to those questions. It is submitted that the answers will be forthcoming when
